

Call For Papers

International Conference on Intelligent Data Processing: Theory and Applications

The Program Committee of the 11th International Conference on Intelligent Data Processing: Theory and Applications (IDP-2016) invites authors to submit full-length papers in English to the issue Intelligent Data Processing published by Springer in Communications in Computer and Information Science series.

IDP-2016 conference is a premier forum that brings together the data science researchers and professionals to discuss, distribute and advance the state of research and development of the data analysis field.

Key topics

- Data Mining
- Machine Learning
- Big Data Analytics
- Deep Learning
- Computer Vision
- Text Mining
- Social Networks Analysis
- Data Science for Biology and Medicine
- Data Science Applications

The conference Program Committee and the Editorial Board accept papers representing the latest achievements in the theory and practice of intelligent data processing. It is expected that the papers demonstrate the theoretical achievements in addressing the fundamental problems of data mining and also pay attention to the applications of these achievements. Papers demonstrating solutions of practical problems should use modern theoretical methods, motivated by real needs of the modern world. A well-developed computational experiment with analysis and comparison is welcome. All submitted papers are passed on to peer review. The reviewers are invited to make one-round review decision.

Important Dates

- 20 February 2017 Research paper submission deadline
- 20 April 2017 Notification of acceptance/rejection
- 20 May 2017 Camera-ready versions for Springer CCIS Proceedings

Submission guidelines

Papers are submitted through jmla.org/papers. Resources for authors including style guides, templates and style files: jmla.org/papers-submission. The Springer information for authors: www.springer.com/series/7899. The paper length is 12 to 15 pages in the LNCS/CCIS one-column page format.

Shaura Ishkina info@jmla.org

Conference Program Committee

Konstantin Rudakov, chair, Academician of the Russian Academy of Sciences
Denis Zorin, co-chair, Professor of the New York University's Courant Institute of Mathematical Sciences, USA

List of the conference committee members: mmro.ru/en/2016/04/15/iip-11-il-en/

Editorial Board

Vadim Strijov, volume editor (strijov@phystech.edu), Moscow Institute of Physics and Technology, Russia

Konstantin Vorontsov (vokov@forecsys.ru), Federal Research Center Informatics and Control of the Russian Academy of Sciences, Russia

Yuri Maximov (yurymaximov@gmail.com), Los Alamos National Laboratory, USA

Konstantin Mertsalov (konstantin.mertsalov@harbour.space), Harbour.Space University for Technology and Design, Barcelona, Spain
